THE INVISIBLE

A REVOLUTIONARY DISPENSER PROGRAM

OPERATIONS FRIENDLY

The bracket can be easily fixed to the wall via screws or an adhesive strip. The easy-to-use bottle unlocking key offers quick replacement and cleaning.

EXCLUSIVE PATENTED DESIGN

A patent-pending, tamper proof wall mount system allows the cartridge of THE INVISIBLE dispenser to lock in place without unsightly brackets or supports.

CONTAMINATION-FREE

THE INVISIBLE dispenser is non-refillable, eliminating the risk of liquid contamination. A see-through strip allows easy and discreet liquid fill level monitoring.
